VISIT TO RESCUE-EULA DISCLOSES ORE BODY OF GREAT RICHNESS

The Bonanza received instructions to tell of the Rescue-Eula in conservative language. That was the condition imposed when permission was granted to inspect the workings this morning. It was a most difficult imposition, for the physical conditions of the property are such as to warrant the use of adjectives, adverbs and exclamations. However, they will be studiously avoided.

The discovery that has been the chief sensation of this district for several weeks past was made on the 950 level. A crosscut was run 560, then deviated slightly to a north course, passing near the southeasterly corner of the Occidental claim of the Belmont as it emerged from Rescue into the Eula claim. A short distance beyond the vein was struck. Drifts were run both east and west. A few feet easterly a raise was sent up about seventy feet. This morning it shows 6 to 8 and one-half feet, with from eight to twelve inches on the hanging that is as black and as glittering as anthracite coal. The entire face of the raise breaks ore of excellent grade.

The drift has been run to the eastward approximately 160 feet and for the entire distance it is in ore, the average width appearing to the casual visitor to be four and one-half feet, with the dip of 45 degrees taken into consideration. The hanging wall continues to be the richest side of the vein, there being a seam of stephanite and ruby from several inches to a foot in width following the gouge. A foot below the footwall streak there is a plainly marked seam of salmon pink rhodinite traversing the vein from wall to wall. The remainder of the ledge consists of a close textured quartz liberally peppered with silver sulphides, which also permeate the seams in the rock, while specimens showing ruby are abundant.

The vein is remarkably uniform in not only width and dip, but in trend and the east drift follows it in almost a straight line, the size of the vein making it possible to practically comprehend it in a drift work without removing any quantity of waste worth mentioning.

Above the drift the three raises show the continuity of the vein upward. The ore body will be tapped at a greater depth, before the ore above can be stoped out. The shaft at the 1100 is dry and work can be pressed forward rapidly.

Due to the opening of these raises shipments are being made with greater frequency and the output will be still further increased when actual stoping is in progress. One pleasing feature of the Rescue-Eula ground is that no large earth movements have been logged, the slips being small and the stepfaults inconsequential.

CLIFFORD FUNERAL TO BE HELD TOMORROW

CORTEGE WILL LEAVE KNIGHTS OF COLUMBUS HALL AT 9:30 WEDNESDAY MORNING

The funeral of the late Edward Clifford, Sr., will be held from the Knights of Columbus hall tomorrow morning. The cortege will leave the hall at the head of Brougher avenue at 9:30 sharp for the Catholic church, where solemn requiem high mass will be celebrated by Rev. Father Dine. At 10 o'clock, proceeding thence to the local cemetery where the remains will be interred in the family plot.

This evening prayers will be recited at Knights of Columbus hall at 8 o'clock. The remains are lying in state at the hall watched by a committee of members who have maintained constant vigil since the arrival of the body last Sunday. Flowers are beginning to arrive in large quantities from the coast and by tomorrow morning it is believed the largest display of flowers seen in Tonopah will accompany the funeral to the grave. The deceased was a great lover of flowers and his display on Memorial day at the graves of the family has always been regarded as one of the grateful features of the celebration.

The pallbearers will be Frank P. Kerns, Martin Hannigan, George Deagan, Ed. McLaughlin, John Troy, Peter Duffy, P. J. McQuade, D. J. Robb, M. Shea and Chris. Barry.

BROKERAGE SERVICE BY PHONE

There are two 'phones in my office, for the convenience of patrons and all persons interested in stock quotations and the latest market news. My 'phone service is at your disposal, either for the purpose of giving you the latest information, or for executing your market orders. All orders by 'phone will receive prompt and confidential attention. Call either No. 1442 or 2072.

SAGE READY FOR REVOLVER MATCH

ACCEPTS CHALLENGE OF TONOPAH MARKSMAN FOR SUBSTANTIAL WAGER

Clarence A. Sage of Goldfield, who has established a record as one of the best revolver shots in the country and who holds the world's record for off-hand shooting at 200 yards, today authorized The Tribune to accept for him, under certain specified conditions, a challenge issued recently by Dr. A. Jorgan-Owen of Tonopah.

The challenger must deposit with the John S. Cook bank a certified check for \$200; the remainder of the 500 to be posted at any time prior to the contest; the contest to be held at Goldfield, with revolvers or six-shooters of not more than 7-inch barrel, off-hand shooting and string measure, at a range distance of not less than 100 yards. The match must be refereed by three men, each of the contestants to choose one and these to select the third.

STRIKE ON MIDWAY INSPECTED TODAY

VEIN SHOWS UP FOR A WIDTH OF 10 FEET ON 800 FOOT LEVEL

The crosscut on the 800 level of the midway mine, 600 feet south of the new shaft, had not at noon today cut through the vein which was encountered Saturday night. Secretary Erickson took a party down this morning to inspect the discovery.

Of course, a mere crosscut cannot determine the trend of a ledge, other than in a general fashion, but it appears to strike nearly east and west. The hanging wall, which is plainly gouged, is standing at the point of intersection about 25 degrees from the vertical. The hanging wall rock is not yet absolutely classified. Some term it rhyolite breccia and others Vest End rhyolite.

There are some indications on the west side of the crosscut that the outwall is coming in, but on the east side the Leyner drill is chugging through what seems still to be quartz. The vein shows a full ten feet in width. It is of good grade on the hanging for a distance of a couple of feet and then is of lower grade, the quartz being very lively, showing sulphides, but is not so fully impregnated as near the hanging. As the footwall neared the mineralization in the values being equal to or greater than those on the hanging.

When the ledge was encountered and the first occurrence of heavy sulphides was cut, it was believed that the better values lay on the hanging and an east drift was started. As developments in the crosscut proceeded, it was deemed best to cease work on the drift as it might be considered expedient to run it on the foot.

The hanging wall, indeed the ledge itself, has all the appearances of the Murray, which it may parallel. On drifting east the Midway company will have 400 feet of territory that is

BURGLAR FOUND RIFLING SALOON

EARLY MORNING VISITOR TO THE CLUB SALOON DETECTED AFTER A ROBBERY

Frank Justin was arrested this morning at 2 o'clock while in the act of robbing the Club saloon on Main street and is held on the charge of burglary. The prisoner is a good looking man of 22 years who only arrived in Tonopah last Sunday afternoon coming in by stage from Goldfield. When arrested \$33.40, mostly in quarters, was found in his pockets.

Justin was hanging around the Club saloon early in the morning when Frank Malley, one of the owners, began to close. Justin thereupon walked out and going around to the rear pried off the screen and effected entrance. To avoid notice the intruder closed the front curtains which are always pulled aside after the place is closed for the night and then, with a screw driver and hammer, attacked the two bit slot machine. He had removed the contents and was about to tackle the cash register when interrupted by Officers Jack Grant and Bob Dalzell, who placed him under arrest.

Officer Grant on making his rounds along Main street, observed the curtains drawn and, summoning Dalzell to the front, went around to the rear entrance and walked in on the burglar.

The prisoner says he left Bisbee, Arizona, on the thirteenth of March, but does not explain what he was doing for the past month.

ANNIVERSARY OF THE S. F. EARTHQUAKE

(Continued from page 1)

The bars was typified in the authenticated account of a man who drank the turpentine off the top of an open pail of paint, and the tale of the millionaire banker, who tried, in vain, to borrow a dollar from a newspaper man were retold to indicate that the real distress was transitory. These stories were woven in with accounts of the large grasp of the situation taken by the committee of fifty, and the spontaneous generosity of the railroads which furnished free transportation to anyone wishing to leave the city, and spent more than half a million dollars in this way alone.

The day's activities recalled to visitors that buoyancy of spirit which astounded the world a decade ago and which perhaps was exemplified in the recollections of a well-known attorney.

"I was in New Orleans on my way to Europe for a three month's holiday," he said, "and when I saw the papers, I knew I had lost everything I possessed."

"And you hurried back?"

"O no. I considered that I was cleaned out and there were too many people in San Francisco in the same plight. So I went on with my trip."

Old timers recall that the town, built to perilous heights under the mistaken impression that redwood, which was cheap would burn slowly, if at all, has been reconstructed, over the burned area, into a city of steel, stone, concrete and brick. A new civic center costing eight million dollars has just been completed near the site of the old city hall.

WILL INSTALL HEAVIER PUMPS ON THE GREAT WESTERN

The flow of water in the Great Western mine will shortly be got under control. The present pump and bailer holding it in check in front of the iron and concrete bulkhead, but from the way in which it is gushing around the barricade it is evident that heavier pumping appliances will be needed before the bulkhead can be removed and work prosecuted on the crosscut. The additional pumps have been ordered and will shortly be installed.

MACFARLANE APPOINTED

M. A. Macfarlane, who was endorsed by Senators Newlands and Pittman for the Winnemucca postmaster ship nearly two weeks ago, has received the appointment.

virgin ground. To the westward it has a much greater amount of ground, none of which has yet been explored.

The country in which the vein was found is very firm, showing no tendency to fault. Indeed, in the south crosscut there is only one plainly marked slip and it does not seem to be one that would cut off formation. Running parallel to the ledge a short distance to the north a small vein or stringer was encountered several weeks ago. It assays from \$20 to \$40 to the ton, but is not of commercial size at the point of intersection.

PERSONAL

AL FREVERT, of the Hall Liquor company, was a passenger this morning for San Diego, Cal.

E. M. BYLER, the well known mining engineer of Goldfield, is visiting in Tonopah.

W. D. KNIGHT, deputy U. S. marshal, arrived this morning from Reno on official business.

C. L. SHUPPEY, the round Mountain mining man, is spending a few days in Tonopah.

FREMONT REED, the insurance representative, was a passenger on this morning's train for Luning.

AMONG the bar representatives from Goldfield, who attended the Bowler funeral, were Gus Tilden, M. A. Diskin and Judge Barnes.

MAURICE J. SULLIVAN, lieutenant governor, arrived from Goldfield on today's train.

E. R. YOUNG, former teacher in the public schools of Tonopah and Manhattan, arrived from the Pine Tree camp and will depart on tomorrow's train for Sparks.

MRS. GEORGE KEOUGH and Mrs. K. Phillips, sisters of the late P. M. Bowler, accompanied by Charles Keough and Mrs. O. Warner left by auto for Reese River this afternoon.

A HOME INDUSTRY

Peter Fabbi, the proprietor of the Progress and Vienna bakeries in this city, is a new advertiser in the Bonanza. He lays stress on the fact that his bread is fresh and his pastries all just out of the oven, going warm to his patrons, while what is shipped from the coast is two days stale upon its arrival. Call up 404 and you will be served by his delivery men. Pastry of all kinds.

A man may always mind his own business without becoming a slave to it.

If you want the telegraph and local news—try the Bonanza.

AMUSEMENTS

BUTLER THEATER

A large and appreciative audience greeted Miss Whiting at the Butler last evening and thoroughly enjoyed the efforts of the clever little entertainer who rendered three of the late popular songs in a very pleasing manner, and it was the popular opinion that this little girl with the big voice is the most talented artist who has ever appeared at the Butler theater, this fact being manifested by the generous applause being given her after each number.

Blanche Sweet, Theodore Roberts and Carlyle Blackwell head the cast of the Lasky production of Edward Locke's famous drama, "The Case of Becky," which will be the attraction at the Butler this evening. This production, when produced upon the stage a short time ago by David Belasco, was pronounced the sensation of the theatrical decade. Miss Sweet has never before been seen in a play of this character, changing as she does from a pretty, sweet girl into a course malicious creature entirely different from her usual self. The versatile Theodore Roberts who has been seen in many roles will also appear in an entirely new characterization. As the traveling hypnotist, Mr. Roberts is said to do some of his finest work—even greater than his famous portrayal of "The Sheriff" in "The Girl of the Golden West." Supported by three splendid artists, each a star in his right, together with the other members of the Lasky all-star stock company, gives the film version of this sensational play a degree of excellence rarely attained by any motion picture production. The preliminary reel will be another Burton Holmes' travel picture entitled "A Day With The West Point Cadets," giving a visit to our national military academy at West Point—a feature in itself. Miss Whiting will also appear in an entire change of songs, which will be added attractions to the regular picture program. Tomorrow "Concealed Truth" with Gertrude Robinson. Latest success of modern drama adopted from one of Robert Burns' poems. A Pathe comedy and a Ford weekly (which are always good.)

Having bought the interests owned by Tanney & Hill in the Midway Bar, I notify my friends and customers that I will pay all bills against the old firm. All bills due are payable to me.
